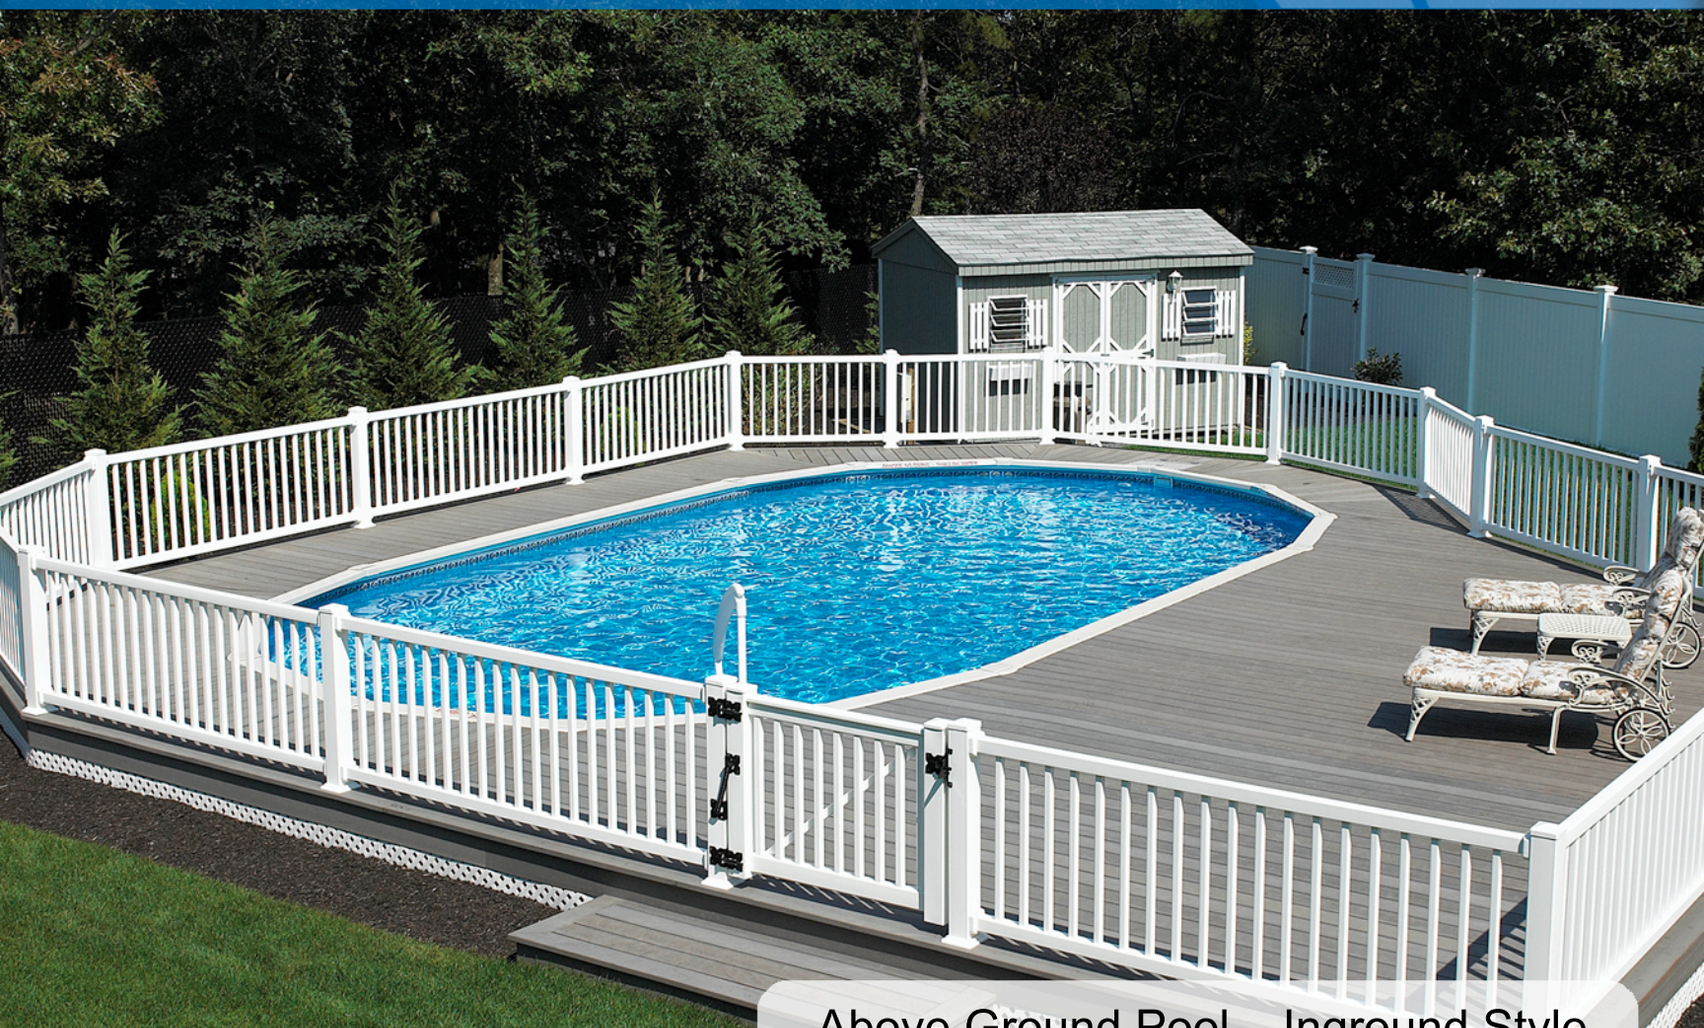
Teddy Bear Semi-Inground

Above Ground Pool...Inground Style



Above Ground Pool... Inground Style

The most versatile pool on the market! The extruded aluminum pool allows consumers to achieve inground style with an above ground pool (at an above ground price)! All extruded aluminum construction provides exceptional corrosion resistance to ensure your pool will look good for years to come. Our extruded aluminum pool is the only above ground pool on the market with a rigid wall providing the toughness and stiffness of an in-ground pool. Available in both oval and round shapes, there is sure to be a pool that reflects your personal style.

TEDDY BEAR POOLS & SPAS

Teddy Bear Semi-Inground

The Difference is in the Aluminum

Swimming pools made of extruded aluminum are the best choice for value,strength and long lasting enjoyment of your pool.

- Aluminum naturally resists corrosion
- The combination of soil, minerals, water and pool chemicals that can wreak havoc on other pool materials
- The airline, automotive and construction industries all turn to aluminum when they need a safe, long-lasting material that can withstand the elements.
- Pound for pound aluminum is twice as strong as steel
